Education

Jackson College: General Education Courses – 2024-Present

Eastern Michigan University: Information Assurance and Cyber Defense – Expected to receive December 2027

Certifications

CompTIA IT Fundamentals – Received June 30, 2014 – Never expires.

Experience

Comtronics – Advanced Technical Support

April 2024 – February 2026

Provided technical support to customers through phone, email and the ConnectWise ticketing system. Pre-configured alarm systems, so they were programmed before the technician installed them. Assisted technicians with troubleshooting and programming when they were in the field. Worked with multiple devices including fire and burglary alarms along with cameras and recorders.

Commonwealth Associates – PC Technician

June 2022—March 2024

Provided technical support to employees via chat, email, phone, and the KACE ticketing system. Built and deployed computers for professional staff, installing role-specific software and ensuring optimal performance. Trained employees on the use of various equipment and software tools. Initiated and led a comprehensive documentation audit of IT department materials; reviewed, updated, and created documentation for undocumented processes and procedures. Assisted in network monitoring using PRTG; reported server outages, updated server identifiers, and organized network topology for improved visibility. Developed PowerShell scripts and custom applications for deployment via Microsoft Intune.

Blackboard Learn—Customer Care & Tech Support

May 2022—September 2022

Temporary position to provide support at high call volume times. Assisted with customer care and technical support for parents and students using Blackboard K12 Stride services and devices. Provided and reset passwords and assisted with portal navigation. Troubleshot and repaired software issues and replaced hardware when needed.

50tel – Technical Support

January 2022—April 2022

Built new customer profiles and programmed/ shipped new phones. Responded to customer support calls. Managed 10-20 helpdesk tickets a day. Helped migrate existing customers from old PBX to a new PBX. Fielded after-hours support calls.

Geek Squad – Advanced Repair Agent/ Consultation Agent

May 2019—January 2022

Resolved technology issues and recommended preventative measures. Setup new computers and user accounts, installed software and operating systems. Diagnosed devices, replaced/upgraded hardware, and inspected returned products.
